

Professor Audrey Bowden

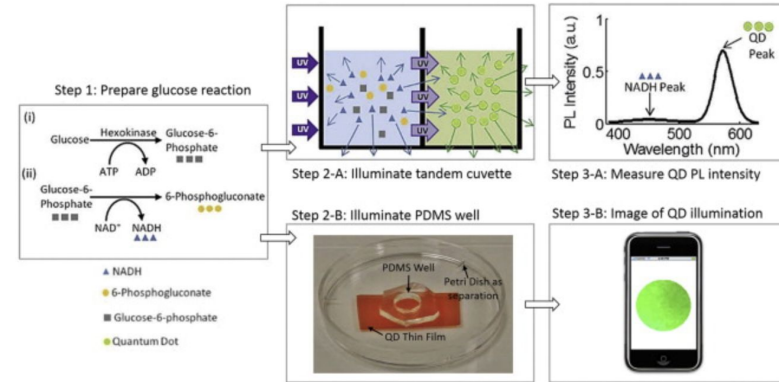

Vanderbilt - Dorothy J. Wingfield
Phillips Chancellor Faculty Fellow
and Associate Professor of
Biomedical Engineering (BME) and
of Electrical Engineering and
Computer Science (EECS)

Education:

- Postdoctoral fellowship in Chemistry and Chemical Biology
Harvard University
- Ph.D., Biomedical Engineering
Duke University
- B.S.E., Electrical Engineering
Princeton University

Fun Facts:

- From: Queens, New York
- Favorite Food: Lime Tostitos
- Favorite Book: *The Scarlet Pimpernel*

Research Focus: The Bowden Biomedical Optics Laboratory (BBOL) aims to develop and deploy novel imaging and sensing technologies to address unmet clinical needs in medicine and biology.

Research Topics: Optics, electrical engineering, computer vision, machine learning, microfluidics, and nanophotonics
