

# Professor Rodney D. Priestley

*Pomeroy and Betty Perry Smith  
Professor of Chemical and Biological  
Engineering at Princeton University*

- Dean of the Graduate School at Princeton

## Education:

- Ph.D., Chemical Engineering  
*Northwestern University, 2008*
- B.S. in Chemical Engineering-  
*Texas Tech University, 2003*

 PRINCETON UNIVERSITY

Priestley Laboratory

Source: <https://priestley.princeton.edu/>

## Research Focus:

- Applications of polymer-based colloids
- Understanding glass behavior of polymer thin films and nanocomposites
- Vapor deposition of macromolecules
